

## **Comments from HISD Administrators About CEP**

*"I would like to share with you how much the entire staff here at Hartman Middle School appreciates the alternative program for students who have consistent discipline concerns. The CEP ALTERNATIVE PROGRAM is extremely successful because of its structure. The monitoring system keeps students who attend the program on task. We have experienced at Hartman excellent student growth from many of our students who have returned from the CEP PROGRAM. We at Hartman applaud HISD for implementing this program to help HISD SCHOOLS make a difference with students who have ongoing discipline problems. We would encourage HISD to employ a summer school program as well. This truly helps all HISD schools. THE CEP PROGRAM IS DEFINITELY NEEDED. WE CAN'T DO WITHOUT IT."*

Joseph Addison, Principal of Hartman Middle School

*"This is a note of support and thanks to CEP Discipline Alternative Education Program. I have been an educator in secondary education for a total of seven years. In those seven years CEP has been a blessing to me and the children it serves. CEP has been able to take children that have not been able to be successful academically or socially in the traditional school setting and redirect their academic and social behaviors to impact their lives positively.*

*Again thanks to CEP for the support they give secondary schools, staff and the children we serve. I look forward to partnering with them again this year to ensure the lifelong success of the children we serve."*

Renaldo Wallace, Principal of Attucks Middle School

*"CEP has been a wonderful support system to the Houston Independent School District and particularly to the South Region schools. The students that have been referred to CEP have shown overall improvement in their behavior when they return to their regular school environment—so much so that my Region has developed a similar model for elementary students to be serviced within the South Region."*

Warner D. Ervin, HISD South Region Superintendent
